## Masculinities By R. W. Connell

This is an exciting new edition of R.W. Connell's groundbreaking text, which has become a classic work on the nature and construction of masculine identity. In its first edition, *Masculinities* provided one of the most important voices in feminist scholarship by men. Connell argued that there is no such thing as a single concept of masculinity, but, rather, that many different masculinities exist, each associated with different positions of power. In a world in which gender order continues to extend privilege to men over women, but that also raises difficult issues for men and boys, Connell's account is more pertinent than ever.

In the new edition's substantial new introduction and conclusion, Connell discusses the development of masculinity studies in the ten years since the book's initial publication. He explores global gender relations, new theories, and practical uses of masculinity research. Looking to the future, his new concluding chapter addresses the politics of masculinities, and the implications of masculinity research as a way of understanding current world issues. Against the backdrop of an increasingly divided world, one that is presently dominated by neo-conservative politics, Connell's account highlights a series of compelling questions about the future of human society.

This second edition of Connell's classic book will be essential reading for students taking courses on masculinities and gender studies and will be of interest to students and scholars across the humanities and social sciences.

## **Editorial Review**

### Review

"In a new introduction and afterword, Connell reviews more recent work and extends some of his thinking on the significance to masculinity of global economics, politics and culture." *Times Higher Education Supplement*

### From the Inside Flap

#### FROM THE PREVIOUS EDITION:

"Clearly written and sophisticated, this book presents Connell's ideas about males and the social phenomena that interact with gender."—*Choice*

"Connell's book is the fundamental study on masculinity as a formative factor on modern social inequality, and also of the most important books in the social sciences in recent years."—*Journal for the Study of British Cultures*

"A wonderful book; engagingly written, broadly researched, and politically useful. It is certainly one of the best of the recent, to use Connell's witty phrase, 'books about men.'"—*Australian Journal of Political Science*

### From the Back Cover

"Bob Connell is the most fertile, astute and influential analyst of the myriad and messy meanings of masculinities on the planet. "The Men and the Boys boldly extends the scope, depth and power of the foundational work he laid in *Masculinities* to address the most urgent and difficult questions about global gender and injustice of our time. Dare I label it a heroic work?" --Judith Stacey, author of "Brave New Families"

## **Users Review**

### **From reader reviews:**

#### **Bradley Smith:**

Are you kind of occupied person, only have 10 as well as 15 minute in your morning to upgrading your mind ability or thinking skill possibly analytical thinking?
