Principles of International Environmental Law By Professor Philippe Sands, Professor Jacqueline Peel

The third edition of this classic textbook offers comprehensive and critical commentary on international environmental law. It fully covers the key topics of the course and is clearly structured to include the history and framework in which international environmental law exists, key areas of regulation and implementation, links to other areas of law and future developments. It has been updated to incorporate all the latest developments in treaty and case law. Extensive feedback on previous editions results in a restructuring of material, including a new part focused on linkage to other areas of international law including human rights, international trade and foreign investment. There is also a new chapter on future developments charting the directions in which the subject is moving. Specialist authors writing on oceans, seas and fisheries and biodiversity add to the expertise of the two principal authors for an authoritative overview of the subject.

Editorial Review

Review

'The third edition of Principles of International Environmental Law is the ultimate book for all interested in studying this subject. It provides an exhaustive analysis of contemporary international environmental law, from the perspectives of its historical and political development. Written by leading experts with a world-wide reputation, it will be, as its two previous editions were, a must in studies of international environmental law. With a clearer structure than previous editions, it is erudite but accessible and it provides a wealth of information.' Malgosia Fitzmaurice, Queen Mary University of London

'From its very first edition, this important book has been an indispensable resource for students and practitioners. It provides an accurate account of the development and current state of the law and well organized and comprehensive coverage of key topics. The updated chapters on water, biodiversity, climate change and international trade are particularly welcome. I warmly recommend it to anyone studying international environmental law.' Dr C. P. McKenzie, University of Cambridge

About the Author

Philippe Sands is Professor of Law and Director of the Centre on International Courts and Tribunals in the UCL Faculty of Laws. He is also a practising barrister, with extensive experience litigating cases before the International Court of Justice, the International Tribunal for the Law of the Sea, the International Center for the Settlement of Investment Disputes and the European Court of Justice.

Jacqueline Peel is an Associate Professor at the Melbourne Law School, with a background in environmental science and law. She has taught many courses in environmental law, international environmental law and climate change law, and has published widely in the field.

Users Review

From reader reviews:

Teresa Propst:

Have you spare time to get a day? What do you do when you have a lot more or little spare time? Yep, you can choose the suitable activity to get spend your time. Any person spent all their spare time to take a go walking, shopping, or went to the particular Mall. How about open as well as read a book eligible Principles of International Environmental Law? Maybe it is to be best activity for you. You realize beside you can spend your time along with your favorite's book, you can cleverer than before. Do you agree with their opinion or you have some other opinion?

Jennifer Wadsworth:

Playing with family inside a park, coming to see the marine world or hanging out with buddies is thing that usually you have done when you have spare time, in that case why you don't try issue that really opposite from that. One activity that make you not sense tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love Principles of International

Environmental Law, you can enjoy both. It is fine combination right, you still want to miss it? What kind of hang-out type is it? Oh seriously its mind hangout people. What? Still don't buy it, oh come on its identified as reading friends.

Nathaniel Cornelius:

You can spend your free time to see this book this e-book. This Principles of International Environmental Law is simple bringing you can read it in the park your car, in the beach, train in addition to soon. If you did not include much space to bring the particular printed book, you can buy the actual e-book. It is make you simpler to read it. You can save the actual book in your smart phone. So there are a lot of benefits that you will get when you buy this book.

Gabriel Badger:

Is it an individual who having spare time after that spend it whole day by means of watching television programs or just telling lies on the bed? Do you need something totally new? This Principles of International Environmental Law can be the response, oh how comes? The new book you know. You are thus out of date, spending your extra time by reading in this completely new era is common not a geek activity. So what these publications have than the others?
