

# Post-parametric Automation in Design and Construction

By Alfredo Andia, Thomas Spiegelhalter

**Post-parametric Automation in Design and Construction** By Alfredo Andia, Thomas Spiegelhalter

Book Information Automation, a mixture of algorithms, robots, software, and avatars, is transforming all types of jobs and industries. This book responds to one critical question for the design and construction industry: "how are architects, engineers, and contractors using information technology to further automate their practices?" Addressing the use of new digital technologies, particularly parametric automation for design and construction in the building industry, this book looks at how technologically advanced architectural and engineering practices are semi-automating their design processes by using sophisticated algorithms to transform their workflows. The book also documents a set of firms that are further advancing automation by using pre-fabrication, modularization, and custom designs via robotics. Market Engineers; Architects; Building Designers; Construction Managers; Contractors; & Developers

#### **Editorial Review**

About the Author

Alfredo Andia is an associate professor in the Department of Architecture at Florida International University . He earned his Ph.D. from the College of Environmental Design at the University of California , Berkeley. Thomas Spiegelhalter is co-director of the Structures and Environmental Technologies Lab at the Department of Architecture at Florida International University and teaches Sustainability Graduate Studio and Environmental Systems in Architecture. He earned his master in design and architecture from the University of the Arts in Berlin

#### **Users Review**

#### From reader reviews:

#### **Rose Cotner:**

Have you spare time to get a day? What do you do when you have considerably more or little spare time? Yep, you can choose the suitable activity intended for spend your time. Any person spent their spare time to take a stroll, shopping, or went to the particular Mall. How about open or maybe read a book called Post-parametric Automation in Design and Construction? Maybe it is to be best activity for you. You realize beside you can spend your time with your favorite's book, you can better than before. Do you agree with their opinion or you have other opinion?

#### **Peter White:**

Information is provisions for those to get better life, information these days can get by anyone from everywhere. The information can be a expertise or any news even a concern. What people must be consider while those information which is from the former life are challenging to be find than now's taking seriously which one works to believe or which one the particular resource are convinced. If you get the unstable resource then you understand it as your main information we will see huge disadvantage for you. All those possibilities will not happen throughout you if you take Post-parametric Automation in Design and Construction as the daily resource information.

#### John Ashcraft:

You can spend your free time to study this book this publication. This Post-parametric Automation in Design and Construction is simple bringing you can read it in the playground, in the beach, train and soon. If you did not get much space to bring typically the printed book, you can buy typically the e-book. It is make you better to read it. You can save often the book in your smart phone. Thus there are a lot of benefits that you will get when you buy this book.

#### William Farley:

Reading a publication make you to get more knowledge from the jawhorse. You can take knowledge and information from the book. Book is published or printed or outlined from each source in which filled update of news. In this modern era like at this point, many ways to get information are available for you. From media social just like newspaper, magazines, science guide, encyclopedia, reference book, novel and comic. You can add your knowledge by that book. Ready to spend your spare time to open your book? Or just in search of the Post-parametric Automation in Design and Construction when you essential it?
