## The Forgotten Network: Dumont and the Birth of American Television By David Weinstein

During the late 1940s and early 1950s, the name DuMont was synonymous with the new medium of television. Many people first watched TV on DuMont-brand sets, the best receivers money could buy. More viewers enjoyed their first programs on the DuMont network, which was established in 1946. Network founder Allen B. Du Mont became a folk hero for his entrepreneurial spirit in bringing television to the American people. Yet, by 1955, the DuMont network was out of business and its founder and namesake was forced to relinquish control of the company he had spent a quarter century building. The heart of David Weinstein's book examines DuMont's programs and personalities, including Dennis James, Captain Video, Morey Amsterdam, Jackie Gleason and The Honeymooners, Ernie Kovacs, and Rocky King, Detective. Weinstein uses rare kinescopes, archival photographs, exclusive interviews, trade journal articles, and corporate documents to tell the story of a 'forgotten network' that helped invent the very business of network television. An original and important contribution to the history of television, "The Forgotten Network" provides a glimpse into the dawn of broadcasting and the growth of our most ubiquitous cultural medium.

### Editorial Review

#### Review

"It is ironic that the most short-lived of the early American television networks should receive the first scholarly treatment, rather than NBC, CBS, or ABC." *Technology and Culture* "engaging...Weinstein makes effective use of corporate records and oral histories in a study that is both good business and cultural history." *The American Historical Review* "This book needed to be written. Author David Weinstein immersed himself in all things DuMont, and his thoroughness is commendable . . . this book provides a fascinating look into television in those formative years." *The Journal of Popular Culture* "David Weinstein has performed a valuable and substantial task for media scholarship in producing this engagingly written and well-researched study of DuMont - it is very good to see this accessible and fascinating account of DuMont." *The Journal of Broadcasting and Electronic Media* "absorbing" *Reason* "Television has changed the way we live in ways most of us take for granted. In a well researched, informative, and entertaining book, David Weinstein looks at the history of the Dumont network. During its nine-year run beginning in 1946, DuMont created a legacy that includes *The Honeymooners*, *Captain Video*, Sid Caesar's *The Admiral Broadway Review*, and *Ernie Kovacs*. DuMont laid the foundation for a medium that continues to enlighten, inform, educate, and entertain us." --Eddy Friedfeld, *WOR Radio*, and co-author, *Caesar's Hours* "In *The Forgotten Network*, David Weinstein moves with sure mastery and ready wit through the technological issues, political machinations, and blurry kinescopes that tell the story of the ill-starred DuMont network. Sharply insightful and smartly written, Weinstein's TV guidebook to a lost chapter in American broadcasting is a major contribution to both television studies and Cold War history. He answers a question that has bedeviled media scholars for decades: how did four networks become three?" --Thomas Doherty, Brandeis University, and author of *Cold War, Cool Medium: Television, McCarthyism, and American Culture* "Thankfully, David Weinstein allows us to rediscover DuMont in the first comprehensive history, an outstanding institutional history of American television, of the network. Weinstein's accomplishment in piecing together the network's history from its few surviving traces deserves the attention of anyone interested in the history of post-war American culture and the respect of all who recognize the dedication and imagination that has gone into this research." *Film Quarterly*
