The Number Mysteries: A Mathematical Odyssey through Everyday Life (MacSci) By Marcus du Sautoy

Every time we download music, take a flight across the Atlantic or talk on our cell phones, we are relying on great mathematical inventions. In *The Number Mysteries*, one of our generation's foremost mathematicians Marcus du Sautoy offers a playful and accessible examination of numbers and how, despite efforts of the greatest minds, the most fundamental puzzles of nature remain unsolved. Du Sautoy tells about the quest to predict the future?from the flight of asteroids to an impending storm, from bending a ball like Beckham to forecasting population growth. He brings to life the beauty behind five mathematical puzzles that have contributed to our understanding of the world around us and have helped develop the technology to cope with it. With loads of games to play and puzzles to solve, this is a math book for everyone.

Editorial Review

Review

“Marcus du Sautoy's love for numbers glows on every page. Marcus du Sautoy is the Steve Irwin of the number kingdom.” ?*Richard Dawkins, author of The God Delusion*

“A superb book about everything from numbers to shapes, to chaos, to codes, from a very able mathematician.” ?*Amir D. Aczel, author of Fermat's Last Theorem*

About the Author

Marcus du Sautoy is a professor of mathematics at the University of Oxford and currently holds the same chair that Richard Dawkins once did. He is active in reaching out the public, speaking at TED Conferences, writing for *The Times* (London) and *The Guardian*, and has appeared in specials on both BBC and PBS. He is the author of *The Music of the Primes* and *Symmetry: A Journey into the Patterns of Nature*. He has been named one of the UK's leading scientists by *The Independent on Sunday* and in 2001 he won the Berwick Prize of the London Mathematical Society, which is awarded every two years to reward the best mathematical research by a mathematician under forty.

Users Review

From reader reviews:

Teresa Dillard:

Reading a e-book tends to be new life style within this era globalization. With studying you can get a lot of information that could give you benefit in your life. Along with book everyone in this world can share their idea. Ebooks can also inspire a lot of people. Many author can inspire their very own reader with their story or their experience. Not only situation that share in the publications. But also they write about the information about something that you need case in point. How to get the good score toefl, or how to teach your children, there are many kinds of book that exist now. The authors nowadays always try to improve their expertise in writing, they also doing some investigation before they write to the book. One of them is this *The Number Mysteries: A Mathematical Odyssey through Everyday Life (MacSci)*.

Lavada Rowlett:

Your reading sixth sense will not betray an individual, why because this *The Number Mysteries: A Mathematical Odyssey through Everyday Life (MacSci)* publication written by well-known writer who really knows well how to make book which can be understand by anyone who read the book. Written with good manner for you, still dripping wet every ideas and publishing skill only for eliminate your hunger then you still uncertainty *The Number Mysteries: A Mathematical Odyssey through Everyday Life (MacSci)* as good book not merely by the cover but also through the content. This is one publication that can break don't determine book by its protect, so do you still needing a different sixth sense to pick this!?! Oh come on your

reading through sixth sense already alerted you so why you have to listening to another sixth sense.

Albert Shepherd:

This The Number Mysteries: A Mathematical Odyssey through Everyday Life (MacSci) is great e-book for you because the content that is certainly full of information for you who all always deal with world and also have to make decision every minute. That book reveal it info accurately using great coordinate word or we can state no rambling sentences in it. So if you are read the idea hurriedly you can have whole details in it. Doesn't mean it only gives you straight forward sentences but challenging core information with wonderful delivering sentences. Having The Number Mysteries: A Mathematical Odyssey through Everyday Life (MacSci) in your hand like having the world in your arm, facts in it is not ridiculous 1. We can say that no reserve that offer you world within ten or fifteen small right but this reserve already do that. So , this can be good reading book. Hello Mr. and Mrs. active do you still doubt in which?

Johnny Sutton:

Some people said that they feel bored when they reading a reserve. They are directly felt the item when they get a half elements of the book. You can choose the book The Number Mysteries: A Mathematical Odyssey through Everyday Life (MacSci) to make your personal reading is interesting. Your current skill of reading proficiency is developing when you such as reading. Try to choose simple book to make you enjoy to read it and mingle the opinion about book and studying especially. It is to be initial opinion for you to like to wide open a book and study it. Beside that the guide The Number Mysteries: A Mathematical Odyssey through Everyday Life (MacSci) can to be your brand-new friend when you're experience alone and confuse with the information must you're doing of this time.
