Aikido Ground Fighting: Grappling and Submission Techniques By Walther G. Von Krenner, Damon Apodaca, Ken Jeremiah

Aikido Ground Fighting presents effective ground techniques that remain true to aikido founder Morihei Ueshiba's teachings while addressing a potential weakness in the system: while aikido is renowned for its submission and compliance techniques as well as grappling from a standing position, it is not known for its effectiveness when it comes to ground fighting. *Aikido Ground Fighting* is a unique look at the roots of aikido techniques (in particular, the kneeling practices of *suwari-waza*) and how they might be applied to defense on the ground. Written by a direct student of Morihei Ueshiba in collaboration with other aikido teachers, this book remains steadfastly true to the founder's teachings while presenting innovative and effective techniques. Containing never-before-published pictures of Ueshiba as well as step-by-step photographs clearly demonstrating techniques, *Aikido Ground Fighting* is designed for aikido students looking to become more well-rounded martial artists as well as practitioners of all martial arts seeking effective self-defense techniques.
