Learning PowerCLI By Robert van den Nieuwendijk

A practical guide to get you started with automating VMware vSphere via PowerCLI

About This Book

- Automate your VMware vSphere environment including hosts, clusters, storage, and vCenter Server virtual machines and networks
- Create good-looking, clean reports in no time, increasing your efficiency
- Get to grips with PowerCLI to automate routine tasks using practical examples

Who This Book Is For

This book is ideal for you if you want to learn how to automate your VMware vSphere infrastructure, by getting the most out of PowerCLI. It's assumed that you have some experience in administrating a VMware vSphere environment. Knowledge of Microsoft's Windows PowerShell is not a prerequisite.

What You Will Learn

- Download and install PowerCLI
- Add hosts to VMware vCenter Server
- Configure vSphere Auto Deploy
- Use the esxcli command from PowerCLI
- Create OS Customization Specs
- Monitor virtual machine performance
- Configure distributed virtual switches and storage I/O Control
- Enable VM and Application Monitoring
- Manage licenses for multiple hosts to migrate them easily
- Configure an alarm to monitor your networks virtual machines
- Generate a good-looking HTML report in no time

In Detail

VMware vSphere PowerCLI is a powerful command-line tool to automate all aspects of a VMware vSphere environment. PowerCLI is built on top of the

popular Windows PowerShell, with which you can automate server tasks and reduce manual input, allowing you to focus on more important tasks.

"Learning PowerCLI" is a practical, hands-on guide that provides you with a thorough knowledge of VMware vSphere PowerCLI. This knowledge will help you to automate your routine tasks so you can save valuable time.

"Learning PowerCLI" introduces you to VMware vSphere PowerCLI, from downloading and installing the software to creating good-looking reports of your VMware vSphere environment.

You will learn about working with host profiles, configuring virtual switches, removing snapshots, configuring Storage DRS, working with affinity rules, configuring an alarm, and managing roles and permissions. You will learn everything you need to know to get started with automating your VMware vSphere infrastructure. All the examples in Learning PowerCLI can be used directly in your environment.

Editorial Review

About the Author

Robert van den Nieuwendijk

Robert van den Nieuwendijk is an IT veteran from the Netherlands with over 25 years of experience in the IT industry. He holds a bachelor's degree in Software Engineering. After working for a few years as a programmer of air traffic control and vessel traffic management systems for a company that is now called HITT, he started his own company Van den Nieuwendijk Informatica in 1988. Since then he has worked as a freelance systems administrator for OpenVMS, Windows Server, Linux, and VMware vSphere systems, mainly for Dutch governmental organizations. Currently, he is a VMware vSphere administrator at Wageningen UR (University and Research centre). During winter, he is also a ski and snowboard instructor at an indoor ski school. With his background as a programmer, he always tries to make his job easier by writing programs or scripts to perform repetitive tasks. In the past, he used the C programming language, OpenVMS DCL, Visual Basic Script, and KiXtart to do this. Since Windows PowerShell 1.0, he uses Windows PowerShell and VMware vSphere PowerCLI for all of his scripting work. Robert is a member of the Dutch VMware User group (VMUG) Customer Council and a frequent contributor and moderator at the VMware VMTN Communities. In 2012 and 2013, VMware awarded him the vExpert title for his "significant contributions to the community and a willingness to share his expertise with others". He has his own blog at <http://rvdnieuwendijk.com> where he has shared his knowledge since 2011. He writes mainly about VMware vSphere PowerCLI, Windows PowerShell, and VMware vSphere. If you want to get in touch with Robert, you can find him on Twitter. His username is @rvdnieuwendijk.

Users Review

From reader reviews:

Bill Flores:

Now a day people who Living in the era everywhere everything reachable by connect to the internet and the resources in it can be true or not call for people to be aware of each info they get. How people have to be smart in acquiring any information nowadays? Of course the solution is reading a book. Studying a book can help men and women out of this uncertainty Information specially this Learning PowerCLI book as this book offers you rich info and knowledge. Of course the info in this book hundred pct guarantees there is no doubt in it everbody knows.

Anthony Doucet:

The reason why? Because this Learning PowerCLI is an unordinary book that the inside of the book waiting for you to snap the item but latter it will zap you with the secret the item inside. Reading this book beside it was fantastic author who also write the book in such amazing way makes the content within easier to understand, entertaining way but still convey the meaning totally. So , it is good for you for not hesitating having this anymore or you going to regret it. This phenomenal book will give you a lot of rewards than the other book get such as help improving your ability and your critical thinking means. So , still want to hesitate

having that book? If I have been you I will go to the publication store hurriedly.

Richard Forbes:

Learning PowerCLI can be one of your basic books that are good idea. Most of us recommend that straight away because this reserve has good vocabulary that may increase your knowledge in vocab, easy to understand, bit entertaining but delivering the information. The author giving his/her effort to place every word into satisfaction arrangement in writing Learning PowerCLI although doesn't forget the main level, giving the reader the hottest in addition to based confirm resource information that maybe you can be considered one of it. This great information can draw you into brand-new stage of crucial imagining.

Hubert Macarthur:

A number of people said that they feel uninterested when they reading a book. They are directly felt that when they get a half elements of the book. You can choose the actual book Learning PowerCLI to make your current reading is interesting. Your personal skill of reading talent is developing when you including reading. Try to choose very simple book to make you enjoy you just read it and mingle the feeling about book and reading through especially. It is to be very first opinion for you to like to open up a book and examine it. Beside that the publication Learning PowerCLI can to be a newly purchased friend when you're really feel alone and confuse using what must you're doing of their time.
