Clinical Practice Manual for Pulmonary and Critical Care Medicine, 1e By Judd Landsberg MD

Clinical Practice Manual for Pulmonary and Critical Care Medicine, by Judd W. Landsberg, MD, is a **unique point-of-care manual** that provides essential information on managing inpatients and outpatients with common, serious respiratory and internal medicine presentation and problems. **Easy-to-follow diagnostic and therapeutic algorithms** are accompanied by **case-based illustrations** encountered on a daily basis by attendings, fellows, residents, and students. The bulleted format, concise approach, and familiar examples provide a framework for effective teaching, learning, and patient care.

- **Identifies common but important misconceptions** that are regularly encountered in pulmonary and critical care training.
- Uses a **concise, bulleted format throughout**, helping you find key information quickly.
- **Illustrates cases with primary data** such as x-rays, monitor strips, ventilator wave forms, and other familiar documentation.
- Helps you **develop your ability to effectively explain your thought process** in the clinical setting to other practitioners at the bedside.
- Serves as a **'teachers guide' for clinician educators**, organizing topics in an easy to teach fashion, amenable to 'chalk talks' and bedside didactics
- Provides **focused discussions of basic physiology and pathophysiology** related to pulmonary and critical care medicine.
- **Expert Consult™ eBook version included with purchase.** This **enhanced eBook experience** allows you to search all of the text, figures, and references from the book on a variety of devices.
