Text Analysis Pipelines: Towards Ad-hoc Large-Scale Text Mining (Lecture Notes in Computer Science) By Henning Wachsmuth

This monograph proposes a comprehensive and fully automatic approach to designing text analysis pipelines for arbitrary information needs that are optimal in terms of run-time efficiency and that robustly mine relevant information from text of any kind. Based on state-of-the-art techniques from machine learning and other areas of artificial intelligence, novel pipeline construction and execution algorithms are developed and implemented in prototypical software. Formal analyses of the algorithms and extensive empirical experiments underline that the proposed approach represents an essential step towards the ad-hoc use of text mining in web search and big data analytics.

Both web search and big data analytics aim to fulfill peoples' needs for information in an adhoc manner. The information sought for is often hidden in large amounts of natural language text. Instead of simply returning links to potentially relevant texts, leading search and analytics engines have started to directly mine relevant information from the texts. To this end, they execute text analysis pipelines that may consist of several complex information-extraction and text-classification stages. Due to practical requirements of efficiency and robustness, however, the use of text mining has so far been limited to anticipated information needs that can be fulfilled with rather simple, manually constructed pipelines.

Editorial Review

Users Review

From reader reviews:

George Marsh:

Here thing why this Text Analysis Pipelines: Towards Ad-hoc Large-Scale Text Mining (Lecture Notes in Computer Science) are different and trustworthy to be yours. First of all reading through a book is good but it really depends in the content of the usb ports which is the content is as tasty as food or not. Text Analysis Pipelines: Towards Ad-hoc Large-Scale Text Mining (Lecture Notes in Computer Science) giving you information deeper since different ways, you can find any e-book out there but there is no book that similar with Text Analysis Pipelines: Towards Ad-hoc Large-Scale Text Mining (Lecture Notes in Computer Science). It gives you thrill reading through journey, its open up your current eyes about the thing which happened in the world which is possibly can be happened around you. It is possible to bring everywhere like in park, café, or even in your means home by train. When you are having difficulties in bringing the printed book maybe the form of Text Analysis Pipelines: Towards Ad-hoc Large-Scale Text Mining (Lecture Notes in Computer Science) in e-book can be your choice.

Kathy Fredette:

Do you have something that that suits you such as book? The guide lovers usually prefer to choose book like comic, short story and the biggest the first is novel. Now, why not hoping Text Analysis Pipelines: Towards Ad-hoc Large-Scale Text Mining (Lecture Notes in Computer Science) that give your fun preference will be satisfied through reading this book. Reading addiction all over the world can be said as the means for people to know world considerably better then how they react to the world. It can't be stated constantly that reading routine only for the geeky man but for all of you who wants to possibly be success person. So , for all you who want to start examining as your good habit, you may pick Text Analysis Pipelines: Towards Ad-hoc Large-Scale Text Mining (Lecture Notes in Computer Science) become your current starter.

Anthony Jones:

You could spend your free time to read this book this guide. This Text Analysis Pipelines: Towards Ad-hoc Large-Scale Text Mining (Lecture Notes in Computer Science) is simple to develop you can read it in the playground, in the beach, train and also soon. If you did not have got much space to bring the particular printed book, you can buy often the e-book. It is make you much easier to read it. You can save the particular book in your smart phone. Therefore there are a lot of benefits that you will get when you buy this book.

Vickie Flores:

Many people spending their moment by playing outside with friends, fun activity using family or just watching TV 24 hours a day. You can have new activity to enjoy your whole day by studying a book. Ugh, think reading a book can really hard because you have to take the book everywhere? It okay you can have the e-book, getting everywhere you want in your Smart phone. Like Text Analysis Pipelines: Towards Ad-hoc Large-Scale Text Mining (Lecture Notes in Computer Science) which is keeping the e-book version. So , try out this book? Let's notice.
