Editorial Review

From the Back Cover

Did you decide NOT to purchase the accompanying textbook at the beginning of the semester? Are you now wishing that you had a textbook? We have designed a product just for your situation—more economical, more portable (thinner and paperback), and more relevant (spiral binding for use next to your computer) for you. The MyMathLab Edition of your textbook is designed for review, reference, and study and does not contain any exercise sets. Exercise sets can be found in the ebook inside your MML course.

About the Author

Marge Lial was always interested in math; it was her favorite subject in the first grade! Marge's intense desire to educate both her students and herself has inspired the writing of numerous best-selling textbooks. Marge, who received Bachelor's and Master's degrees from California State University at Sacramento, is now affiliated with American River College.

Marge is an avid reader and traveler. Her travel experiences often find their way into her books as applications, exercise sets, and feature sets. She is particularly interested in archeology. Trips to various digs and ruin sites have produced some fascinating problems for her textbooks involving such topics as the building of Mayan pyramids and the acoustics of ancient ball courts in the Yucatan.

John Hornsby When John Hornsby enrolled as an undergraduate at Louisiana State University, he was uncertain whether he wanted to study mathematics, education, or journalism. His ultimate decision was to become a teacher, but after twenty-five years of teaching at the high school and university levels and ten years of writing mathematics textbooks, both of his goals have been realized. His love for teaching and for mathematics is evident in his passion for working with students and fellow teachers as well. His specific professional interests are recreational mathematics, mathematics history, and incorporating graphing calculators into the curriculum.

John's personal life is busy as he devotes time to his family (wife Gwen, and sons Chris, Jack, and Josh). He has been a rabid baseball fan all of his life. John's other hobbies include numismatics (the study of coins) and record collecting. He loves the music of the 1960s and has an extensive collection of the recorded works of Frankie Valli and the Four Seasons.

Users Review

From reader reviews:

Lori Suda:

What do you about book? It is not important to you? Or just adding material when you really need something to explain what yours problem? How about your extra time? Or are you busy person? If you don't have spare time to accomplish others business, it is make you feel bored faster. And you have time? What did you do? Everyone has many questions above. The doctor has to answer that question simply because just their can do

which. It said that about book. Book is familiar in each person. Yes, it is proper. Because start from on guardería until university need this College Algebra and Trigonometry to read.

Anna Bailey:
