Starting Out with Java: From Control Structures through Data Structures (2nd Edition) (Gaddis Series) By Tony Gaddis, Godfrey Muganda

Starting Out with Java: From Control Structures through Data Structures is designed to be used in a 2 or 3 semester/quarter sequence for beginning programmers. Tony Gaddis emphasizes problem-solving and program design by teaching the Java programming language through a step-by-step detailed presentation. He introduces procedural programming early and covers control structures and methods before objects. Students are engaged and have plenty of opportunity to practice using programming concepts through practical tools that include end-of-section and chapter exercises, case studies and programming projects.

Editorial Review

About the Author

Tony Gaddis is the principal author of the *Starting Out With* series of textbooks. Tony has nearly 20 years experience teaching computer science courses at Haywood Community College in North Carolina. He is a highly acclaimed instructor who was previously selected as the North Carolina Community College Teacher of the Year and has received the Teaching Excellence award from the National Institute for Staff and Organizational Development. The *Starting Out With* series includes introductory books using the C++ programming language, the Java™ programming language, Microsoft® Visual Basic®, Microsoft® C#®, Python, Programming Logic and Design, and Alice, all published by the Addison-Wesley imprint of Pearson.

Godfrey Muganda is an Associate Professor of Computer Science at North Central College. He teaches a wide variety of courses at the undergraduate and graduate levels including courses in Linux and Unix programming, Windows and .NET programming, web application development, web services, data structures, and algorithms. He is a past winner of the North Central College faculty award for outstanding scholarship. His primary research interests are in the area of fuzzy sets and systems.

Users Review

From reader reviews:

Steve Bennett:

Book is to be different for each grade. Book for children till adult are different content. We all know that that book is very important for all of us. The book Starting Out with Java: From Control Structures through Data Structures (2nd Edition) (Gaddis Series) ended up being making you to know about other expertise and of course you can take more information. It is extremely advantages for you. The publication Starting Out with Java: From Control Structures through Data Structures (2nd Edition) (Gaddis Series) is not only giving you a lot more new information but also to become your friend when you feel bored. You can spend your own personal spend time to read your publication. Try to make relationship with the book Starting Out with Java: From Control Structures through Data Structures (2nd Edition) (Gaddis Series). You never sense lose out for everything should you read some books.

Sharon Rowe:

Reading a e-book can be one of a lot of pastime that everyone in the world loves. Do you like reading book so. There are a lot of reasons why people love it. First reading a guide will give you a lot of new info. When you read a e-book you will get new information simply because book is one of a number of ways to share the information or even their idea. Second, reading a book will make a person more imaginative. When you reading through a book especially fictional works book the author will bring you to definitely imagine the story how the character types do it anything. Third, you may share your knowledge to others. When you read this Starting Out with Java: From Control Structures through Data Structures (2nd Edition) (Gaddis Series),

you could tell your family, friends in addition to soon about your e-book. Your knowledge can inspire the mediocre, make them reading a publication.

Margaret Garcia:

The reason? Because this *Starting Out with Java: From Control Structures through Data Structures (2nd Edition) (Gaddis Series)* is an unordinary book that the inside of the book waiting for you to snap the idea but later it will jolt you with the secret the idea inside. Reading this book alongside it was fantastic author who write the book in such wonderful way makes the content interior easier to understand, entertaining method but still convey the meaning fully. So , it is good for you for not hesitating having this any longer or you going to regret it. This unique book will give you a lot of advantages than the other book have got such as help improving your proficiency and your critical thinking method. So , still want to hold up having that book? If I had been you I will go to the book store hurriedly.

Julie Bailey:
