Editorial Review

Review

Curtis Benton, president and CEO of NEC Eluminant Technologies Inc, has hired Friedman twice.

"We hire him as featured entertainment, but he's much more than that," Benton said from his office in Herson, VA. "I use him to motivate our sales force. One of the things that impressed me the most was that I asked him how he prepares for a show. He said he does "mental calisthenics." Well, you and I could do that too, but he is just awesome with what he can do with his mind." -- *Chicago Sun Times*

From the Author

Over the years, the most talked-about chapter has been chapter IV, titled **Power, Wishes and Wisdom**, which explains the "Desire Attainment Technique." I've received thousands of enthusiastic emails and notes on how this simple exercise has helped people achieve their wishes and goals. It works. If I hyped it anymore, you wouldn't believe it. It is what it is, and it has proven to be powerfully effective, making the price of the book meager compared to what this technique and many others in the book can do for you. Here's to your successful future. I predict.

From the Inside Flap

"Ironically, it seems the moment you decide not to impress anyone but yourself is the moment the road to greatness begins. It is the moment you begin to make some discernible difference in the world and for your family. It is the inauguration of genius. It is the start of an honest, creative, meaningful and magical life."
Sidney FRIEDMAN

* make your wishes come true * predict and shape the future * heighten your creativity * verify hunches * attain contentment

The conscious mind knows a limited amount of information compared to the subconscious mind, which seems to know just about everything.
