Food Security in South Africa: Human Rights and Entitlement Perspectives

By Sakiko Fukuda-Parr, Vivienne Taylor

The right to food is guaranteed in South Africa's Constitution as it is in international law. Yet food insecurity remains widespread and persistent, at levels much higher than in countries with similar levels of per capita GDP and development, such as Brazil. In this book, leading local and international researchers on food security and related policy work have come together to create the first systematic and trans-disciplinary analysis of food security and its multiple dimensions in South Africa and the southern African region.
