Editorial Review

From Library Journal

This is a book to be judged by its cover, which boldly presents an outline of South America, its southern tip at the top of the page. This reversal of the cartographic convention is a demand for a new critical viewpoint on contemporary Latin American art. The writing asks us to go beyond the easy view of Latin American artists as creators of a colorful stew of magic realism. The 22 essays by Latin American art critics, most originally written in Spanish or Portuguese, examine feminism, multiculturalism, folk art, religious kitsch, governmental repression, and cultural identity. Although the focus of the book is on Spanish-speaking South and Central America, there are also discussions of Brazil, the Caribbean, and the Spanish-speaking communities of the United States. Yet these essays are by no means parochial examinations of purely local art; they are exceedingly well-written statements of universal interest written from the unique perspective of Latin America. Unfortunately, an appetite sharpened by the quality of the writing is not satisfied by the few illustrations, a loss for readers unfamiliar with the vast range of Latin American art. Recommended for all collections on contemporary art. ?David McClelland, Philadelphia

Review

"A new wave of art and cultural criticism is emerging in Latin America. The essays in this collection not only represent a serious remapping of art history, but some of them have already been influential in revising our notions of Latin American art and culture."

—**Jean Franco**, Professor Emeritus, Columbia University

"This is not just some of the best Latin American art criticism, but some of the best art criticism tout court."

—**Dawn Ades**, Professor of Art History, University of Essex
