

ISO 14001 Step By Step: A Practical Guide

From It Governance Publishing

ISO 14001 Step By Step: A Practical Guide From It Governance Publishing

Accessible and professional advice on how to implement an ISO14001 environmental management system In the 21st century, business has to take sustainability seriously. As public opinion becomes increasingly concerned about climate change, governments are imposing ever tighter environmental regulations on both industry and the retail sector. By putting in place an environmental management system (EMS), you can ensure you are disposing of your waste in a responsible manner and making the most efficient use of raw materials. This will help you to lower carbon emissions and keep the negative impact of your business on the environment to a minimum. ISO14001 The International Standard The international standard for an EMS is ISO14001. With an EMS certified to ISO14001, you can improve the safety and efficiency of your business operations, and, at the same time, boost customer confidence and reassure your stakeholders. An invaluable step-by-step guide This pocket guide, intended to help you put in place an EMS, is specifically focused on ISO14001. It is designed to enable industry managers, who may be lacking in specialist knowledge, to achieve compliance with the Standard. A step-by-step approach makes the guide easy to follow. The authors, two experienced auditors, are acknowledged experts on environmental management systems, and they have drawn on material from the UK's Environment Agency. The pocket guide will prove invaluable, not only for auditors and trainers, but also for managers across many sectors of industry.

Editorial Review

About the Author

Naeem Sadiq is a certified lead auditor and lead trainer for the ISO14001 standard. His work experience in engineering and management includes working as an independent consultant, auditor, and trainer for ISO14001 and ISO9001, as well as for the occupational health and safety standard OHSAS18001. Mr Sadiq has attended various conferences to give papers on standards for management systems, besides providing over 100 organisations with consultancy, training and auditing support. He holds a Masters degree in Manufacturing Engineering and writes regularly for the newspapers on environmental and social issues. Asif Hayat Khan is a trained lead auditor and a trainer for ISO9001, ISO14001 and OHSAS18001. In addition, he is a hazard analysis critical control point (HACCP) auditor and has DuPont certification as a trainer in behavioural safety. In his various roles as consultant, auditor, trainer and manager, he has long experience of establishing and implementing the ISO9001 and ISO14001 standards across various sectors of industry. Mr Khan holds a Bachelor of Science degree in Industrial Engineering.

Users Review
